How to add products to your basket

Search the products as you usually do in Nissens Web Catalogue. If you search by part number, we recommend that you enter only the 5 first digits of the part number. This gives you a list of all alternatives related to the application (either with an A or a 1 after the 5 digit number).

Click on the part number you want and you will see availability, price and quantity in your basket in the WebShop information box (top right corner).

Product info.
